Best regards,  
Fusioncoin Support

## < Deposit USD using XRP >

The screenshot shows the Fusion Coin website's deposit interface. At the top, there is a navigation bar with 'Market', 'XFC Transfer', 'withdraw', 'deposit', 'Trade', and 'setting'. The 'deposit' dropdown menu is open, showing options for 'USD', 'XRP→USD', and 'BTC→USD'. Below this, there is a form for entering a 'Destination ripple wallet address'. The form includes a text input field for the address, a dropdown menu for 'XRP', a text input field for 'Amount', an arrow pointing to a dropdown menu for 'USD', and a text input field for '0'. A note below the form states: '\*2% fee will be charged as administrative fee.' At the bottom of the form, there is a 'Deposit' button.

## < Deposit USD using BTC >

The screenshot shows the Fusion Coin website's deposit interface for Bitcoin. The navigation bar is the same as in the XRP deposit screenshot. The 'deposit' dropdown menu is open, showing options for 'USD', 'XRP→USD', and 'BTC→USD'. Below this, there is a form for entering a 'Destination bitcoin wallet address'. The form includes a text input field for the address, a dropdown menu for 'BTC', a text input field for 'Amount', an arrow pointing to a dropdown menu for 'USD', and a text input field for '0'. A note below the form states: '\*2% fee will be charged as administrative fee.' At the bottom of the form, there is a 'Deposit' button.

Please enter XRP or BTC amount and click “Deposit”.

You will receive an email from Fusioncoin.

Please send your XRP or BTC  
to the address which is informed by email.

# < Trade USD to XFC >

The screenshot shows the trading interface for XFC. At the top, there are navigation tabs: Market, XFC Transfer, withdraw, deposit, Trade (highlighted), and setting. Below this, the user's balances are shown: 0.00000 XFC and 0.00 USD. The main area features a candlestick chart on the left and a trading form on the right. The trading form includes a 'BUY XFC' button (highlighted with a red box), a 'Limit order' checkbox, and input fields for 'USD You Pay', 'USD Price', and 'XFC Amount'. A green 'BUY' button is at the bottom of the form. Red arrows point to these elements with labels: 'Choose BUY', 'XFC amount you buy', 'USD amount you pay', and 'Start trading'. Below the chart is a table with columns: Date, Buy or sell, type, Order, Remain, Estimate, Fill, Result, Status. The table is currently empty, showing 'No data available in table'.

You can place market buy order which will automatically buy Fusioncoins at lowest price offered on the market.

If all the order are contracted, the status change “fix”. If not all the market orders are contracted and some of them are remained uncontracted, the order change a limit order automatically.

In that case you should cancel the order once and place the market order again.

This close-up shows the 'Limit order' section of the trading form. A red box highlights the 'Limit order' checkbox, which is checked. A red arrow points from this checkbox to the text on the right. Below the checkbox are three input fields: 'USD You Pay', 'USD Price' (highlighted with a red oval), and 'XFC Amount'. At the bottom is a green 'BUY' button. Below the button, there is a note: 'A transaction fee of 0.0005% will be charged as a transaction fee. \*You can trade up to 0.00USD.'

When you want to place limit order, please put a check mark here. you will need to set price on which you are willing to buy Fusioncoins.

# < Trade XFC to USD >

The screenshot shows the trade interface for XFC to USD. At the top, there are navigation tabs: Market, XFC Transfer, withdraw, deposit, Trade (highlighted), and setting. Below the tabs, the user's balances are shown: 0.00000 XFC and 0.00 USD. The main area features a candlestick chart with a red area under the price line, indicating a sell order. To the right of the chart, there are input fields for 'XFC Amount' and 'USD Price', and a 'SELL' button. Annotations with red arrows point to the 'SELL XFC' button, the 'XFC Amount' field, the 'USD Price' field, and the 'SELL' button. Below the chart, there is a table with columns: Date, Buy or sell, type, Order, Remain, Estimate, Fill, Result, Status. The table is currently empty, showing 'No data available in table'.

You can place market buy order which will automatically sell Fusioncoins at highest price offered on the market.

If all the order are contracted, the status change “fix”. If not all the market orders are contracted and some of them are remained uncontracted, the order change a limit order automatically.

In that case you should cancel the order once and place the market order again.

Limit order
